Technical Skills

Language Known	:	C, Java, Python, JS, SQL
Some Tools	:	MS Power BI, Tableau, MS Excel

Personal Project

Title	:	Advance Authentication System Using Blockchain Network
Technology	:	JavaScript, Solidity, HTML, CSS
Overview	:	The Blockchain-Based Authentication and Incentive System is a cutting-edge solution designed to elevate user authentication, security, and engagement for companies. By harnessing the power of blockchain technology, this system bids farewell to conventional authentication methods like email or usernames. Companies registering on the blockchain will deposit an initial asset, acting as an incentive for their active users.
